

DE-KA Titan Test Report von China
Uebersetzt von Christian am 09.12.2003

We began to make test in May in South Hospital. Because the time is limited, we made the medical test on 48 patients. It have been mainly used by herbalist doctor and used for outpatients.

1. Equipment: DE-KA Titan 2pcs
2. Hospital: South Hospital
3. Patients: a total of 48 test persons between the ages of 28 and 60 took part in the test.
4. Kinds of the pain: headache (11), migraine (8), rheumatic (8), trigeminal pain (5), toothache (7), Pain arosed by cold (5), trauma (2), pain after operation (2).
5. Method: according to the "how to use" we make the test. And then, the sufferers told Us how they feel, whether it is in effect. We compared the result with the situation that the patients without DE-KA Titan.
6. Results (total 48):

headache (11): soon in 15 minutes it ease pain, 6 patients feel better, 5 have no sense of pain.

migraine (8): in 20 minutes all patients feel much more comfortable, but still a little pain.

rheumatic (8): it seems that they need it a long time, 8 of them all feel better.

trigeminal pain (5): it have efficiency to these 5 persons against the paroxysmal pain.

toothache (7): 3 feel better, 4 have less pain in evidence.

pain from cold (5): 3 feel not painful any more, 2 have a little effect.

trauma (2) and pain after operation (2) all ease pain.

After the medical test we could give a external appraise to this product DE-KA Titan. It have positive effect to ease pain of headache and migraine, it can also reduce the suffering of rheumatic and pain after operation. We think that, Titan is very good for the cure of the long – term headache, migraine and rheumatic, and in china, there are more than ten thousand patients suffered by the headache and rheumatic.
